

# Grief Counseling

The loss of a pregnancy can be traumatic for any parent. Whether they have an early miscarriage, or lose an infant later in pregnancy, the parents need support. For those who have endured miscarriage or the death of an infant, the staff of Evans Army Community Hospital is sorry for your loss.

The OB/GYN Department has a Bereavement Support Program to help parents cope during this difficult time. The staff offers support and follow-up to all parents who have suffered a loss. For more information, please contact the OB/GYN Clinic at 719-526-7172, Labor and Delivery at 719-526-7090, or the Mother/Baby Unit at 719-526-7030.

Additional support is available through Pikes Peak SHARE, Inc., a community-based, mutual help support group. This is the local chapter of the National Share Office. It meets on the second Tuesday of every month from 1900 to 2100 hours at St. Luke's Lutheran Church, 5265 North Union Boulevard in Colorado Springs. For a newsletter and more information, contact Petra Walter at 719-573-6782.
